

Through the use of mobile devices and a SECURE website, CompTracker® enables students, instructors, and administrators to **REPLACE the old PAPER ways** of tracking students.

CompTracker is an EASIER, GREENER way to stay updated AND report on your students!

ESCAPE FROM PAPER!

“CompTracker has been instrumental in allowing us to track students with remarkable efficiency. Both faculty and students have benefited in the addition of this technology.

Our program has seen cost savings associated with student tracking, research opportunities, improvement in student performance as a result of the information generated by the flexible reporting function, and greater confidence in ensuring that all students receive a complete educational experience while in our program.”

Walter Tavares, Program Coordinator
Centennial College Paramedic Program

“I must say as the director of the dental programs Wendy, Kathryn and [Kelly] are doing a tremendous job! We have been also dealing with other dental software companies for our digital charting and radiography and none of these companies compare to what you have done for us. We are grateful for your assistance and quick turnaround when we have questions... thanks so much!”

Trudi Enstrom, Director of Dental Programs
Confederation College

“This has been one of the most amazing experiences of my life. Going back to school at 39 years of age, nervous and scared, wondering if I would be able to handle every and all components of my Advanced Care Program...”

The other huge concern was all of the paper work that would have to be done when going on practicum; however, CompTracker has allowed me to breathe a nice sigh of relief.

This is the most user friendly program I have ever encountered, I know I would be a mess and very unorganized if not for this program. Thank You.”

Peter Tripp, ACP Graduate
